Allowable Subject Matter

1. This communication is in response to applicant's amendment filed December 12, 2007 in the application of Goldberg et al. for the "Technology for improving STP protocols in Ethernet networks supporting VLANs" filed 04/15/2004. This application claims foreign priority based on the application 155449 filed May 15, 2003 in Israel. The proposed amendment and response has been entered and made of record. Claims 2, 10-11, 15, 23 have been canceled per Applicant's request, and claims 1, 5-6, 9, 12-14, 22, 24-25 have been amended. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Ronni S. Jillions (Reg. #31,979) on Sept. 08, 2008.

3. The application has been amended as follows:

IN THE CLAIMS:

- I. Claim 18: line 1, replace "The method according to Claim 15" with --The method according to Claim 14--
- II. Claim 9: Cancel.
- III. Claim 22: Cancel.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Claims 1, 3-8, 12-14, 16-21, 24-25 are allowed as evident by applicant's amendment (Claims are renumbered as 1-18 respectively).

6. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest wherein comprising the following steps to be performed at each Ethernet switching node that is active in the new STP topology and with respect to each of said one or more VLANs: a) ensuring that ports of the Ethernet switching node that is active in the new STP topology, are assigned to said one or more VLANs according to an initial VLANs configuration; b) counting forwarding ports assigned to a particular VLAN, being active according to the new STP topology; c) if a port assigned to a particular VLAN is a single forwarding port for said particular VLAN at said node, de-activating said port with respect to said VLAN, thereby pruning said VLAN at said port and said node; d) generating a de-activation message from each said single forwarding port of said node, the message indicating one or more VLANs de-activated at said port, and transmitting said de-activation message to a neighbor Ethernet switching node in the new STP topology; e) de-activating the port of the neighbor Ethernet switch, that has received said de-activation message, with respect to said one or more

VLANs indicated in the message; f) repeating steps (b) to (c) at said neighbor node, as specifically recited in the claims.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
